## **PAYPERNEWS revolutionizes newspaper printing with one of the first 100% web-based on-demand platform**

In response to growing demand for flexibility, PAYPERNEWS is launching **the first on-demand newspaper printing platform at [www.paypernews.fr](http://www.paypernews.fr)**.

Thanks to its roll-fed inkjet technology, the company now makes it possible to produce a newspaper **starting from a single copy**, at a competitive cost, while ensuring consistent print quality.

Newspaper printing is accessible to everyone, **individuals, businesses, and professional publishers**, and complements traditional Offset technology, which is limited to large print runs.

PAYPERNEWS is making printing more **flexible, sustainable, and customizable**, staying true to its mission of opening up the printed medium to every kind of use.
